

Magellan Plus Workshop

Helsinki, FINLAND, 1-3 Dec 2021

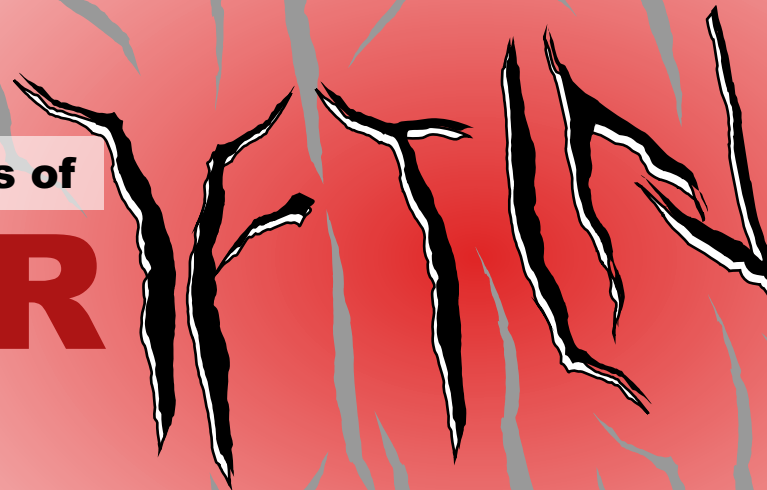

Contact: pietari.skytta@utu.fi

Within the proposed IODP project, we will

- drill a rift with roots in the Archean, and set constraints about the...
 - o changes in the periodicity rate of rifting from Archaean to present-day
 - o climate in the Mesoproterozoic
 - o the weathering rates in the Mesoproterozoic
 - o geological controls over the reactivation of rift-faults (and associated faults)
