

IO:DIP

Indian Ocean: Delving Into the Past

We are pleased to announce the
3-day MagellanPlus workshop

IO:DIP

between

27th of September and 30th of September 2022

in

Graz, Austria

The MagellanPlus Workshop IO:DIP "Indian Ocean: Delving Into the Past" will bring together experienced researchers with Early Career Scientists (ECS) who have a scientific interest in developing new drilling strategies in the Indian Ocean. IO:DIP has the objective to discuss, advance, and integrate mutually-beneficial drilling proposals for the Indian Ocean. IO:DIP intends to develop a framework of overarching and interconnected research goals, gathered under the umbrella of International Ocean Drilling. Thus, **IO:DIP aims to the synchronization of future Indian Ocean proposals to realize a more cost-effective implementation of large-scale scientific objectives.**
