

**Phase I**  
online-only

## Workshop on the future of **Scientific Ocean Drilling**

**ECORD and J-DESC** are committed to providing a safe, open, and respectful environment for participants to their joint workshop. We expect all participants to pursue integrity, honesty, respect, courtesy, responsibility, rigour, and equity in their professional activities.

All participants are expected to follow IODP Code of Conduct and IODP Anti-Harassment Policy and the rules of conduct that are outlined here. Should you observe violations against these rules, please contact the workshops person of trust and/or send an email to [essac@ogs.it](mailto:essac@ogs.it). Messages to this address are treated confidentially. They are read by the ECORD and J-DESC PMO representatives. Violations to the rules of conduct will be taken seriously and appropriate actions will be taken where necessary.

### **Respectful behaviour**

Professional and respectful conduct of all attendees is expected.

Bullying, harassment, intimidation, and discrimination of any kind will not be tolerated.

These rules are valid for all kinds of interaction during the workshop: presentations, discussions, chats.

### **Recording and screenshots**

It is prohibited to take photos or videos of scientific material shown in any in-presence presentations and to take screenshots or record live presentations in any on-line or streamlined sessions unless the presenter authorizes it.

### **Social media**

We encourage open discussion on social media (Twitter, Facebook, etc.) and blogging platforms during the workshop. The following rules aim to provide means by which participants can embrace social media, while at the same time remaining respectful of presenting authors' work and protecting their research output:

- Never post any images or videos online without the authors' explicit permission.
- The default assumption is to allow open discussion of presentations on social media. However, please respect any request from an author not to disseminate the contents of their presentation.

Be sure to include the official hashtag, #ECORD #JDESC #ScientificOceanDrilling, when sharing snippets on Twitter and elsewhere on social media.
